GARY E. JOHNSON
GOVERNOR

DAVID W. HARRIS
SECRETARY

ANTHONY I. ARMijo
DIRECTOR/STATE CONTROLLER

June 14, 1998

To the Citizens, Governor,
and Members of the Legislature
of the State of New Mexico

We are pleased to present the 1998 Annual Financial Report of the State of New Mexico. This report represents the summarized financial position and results of operations of State departments, agencies, and universities.

This report includes all funds and account groups of the State of New Mexico except for the community college and special school funds. The funds represent the various departments, agencies, and other organization units governed by the State Legislature and/or the constitutional officers of the State of New Mexico.

The State provides a variety of services: a judicial system, educational systems, health and human assistance, highway maintenance and construction, law enforcement, public safety programs, natural resource management, and economic development. The cost of those services are presented in this report at various levels of summary. In addition to general government activities, this report includes the universities as component unit entities that are financially accountable to the State and whose exclusion would cause this report to be misleading or incomplete.

We hope this report provides data that is useful in evaluating the financial activity of the State of New Mexico.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "David W. Harris".

David W. Harris
Cabinet Secretary

A handwritten signature in dark ink, appearing to read "Anthony I. Armijo".

Anthony I. Armijo
Director/State Controller

State of New Mexico
Selected State Officials

Executive _____

Gary Johnson, Governor • **Walter D. Bradley**, Lieutenant Governor • **Stephanie Gonzales**, Secretary of State • **Tom Udall**, Attorney General • **Robert Vigil**, State Auditor • **Ray Powell**, Commissioner of Public Lands • **Michael Montoya**, State Treasurer • **Eric Serna**, **Jerome Block**, and **Gloria Tristani**, State Corporation Commissioners

NOTES TO THE FINANCIAL STATEMENTS

The notes to the financial statements provide a summary of significant accounting policies and other disclosures required for a fair presentation of the basic financial statements.

Note 1. Summary of Significant Accounting Policies

The accompanying general purpose financial statements of the State of New Mexico (the State) were compiled from the audited financial statements of the various departments, agencies, and other organization units with the exception of the Public Employees' Retirement Association (PERA). Fiscal information was furnished by PERA prior to availability of audited financial statements, and may differ from information contained in the audited financial statement.

This annual financial report does not include the financial statements of the community colleges and special schools.

The following is a summary of the significant accounting policies:

A. Reporting Entity

The general purpose financial statements include all funds and account groups over which the State's elected officials exercise significant oversight responsibility.

The decision to include a potential component unit in the State's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following significant component units are included in these financial statements:

- University of New Mexico
- New Mexico State University
- New Mexico Highlands University
- Eastern New Mexico University
- Western New Mexico University
- New Mexico Institute of Mining and Technology

These financial statements exclude the community college funds, and special school funds.

B. Fund Accounting

The State uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

The State records its transactions in the fund types and account groups described below. Transactions between funds within a fund type, if any, have been eliminated.

Governmental Fund Types

General- is the general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund.

Special Revenue- is used to account for the proceeds of specific revenue sources (other than debt service, expendable trust or major capital projects) such as Federal grants, that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed by either the State Legislature or outside parties.

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS
June 30, 1998

Note 1. Summary of Significant Accounting Policies (Continued)

Debt Service- -is used to account for the accumulation of resources for, and the payment of principal, interest, and related cost of general long-term obligations.

Capital Projects- -is used to account for the financial resources used for acquisition or construction of major state-owned capital facilities and for capital assistance grants to local governments.

Account Groups

General Fixed Assets Account Group- - is used to account for general fixed assets of the State exclusive of fixed assets reported by the College, Special School, and University Funds.

General-Long-Term Obligations Account Group- -is used to account for long-term obligations of the State including bonds, most obligations under lease/purchase and other financing arrangements, and compensated absences payable exclusive of liabilities of the College, Special School and University Funds.

University Funds

University Funds account for the operations of the following public institutions of high education:

- Eastern New Mexico University
- New Mexico Highlands University
- New Mexico Institute of Mining and Technology
- New Mexico State University
- University of New Mexico
- Western New Mexico University

The accounts of the University Funds are derived from their audited annual financial statements for the fiscal year ended June 30, 1998.

Transactions reported by the Universities are displayed in the University Funds described below:

- Current funds include those assets which can be expended for any purpose in performing the primary objectives of the University. Resources restricted by donors or other outside agencies for specific operating purposes are accounted for as restricted current funds.
- Loan funds include gifts and grants which are limited by terms of the donors for the purpose of making loans to students.
- Endowment and similar funds are subject to the restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be utilized.
- Plant funds include resources that have been or are to be invested in fixed assets and funds reserved to retire debt incurred to finance facilities.

Fiduciary Fund Types

Fiduciary Funds include Expendable and Nonexpendable Trust Funds, Investment Trust Funds, Agency Funds and the State and Local Retirement Systems (Pension Trust Funds). The Expendable and Nonexpendable Trust Funds, Investment Trust Funds and Agency Funds are used to account for assets

Note 1. Summary of Significant Accounting Policies (Continued)

held by the State in a Trustee capacity or as an agent for individuals, private organizations and other governments.

Proprietary Fund Types

Enterprise Funds- -this fund group includes funds and component units whose operations and finances are accounted for in a manner similar to private business enterprises. For this group, it is the intent of the State that: (a) the cost (i.e. expenses, including depreciation) of providing goods and services to the general public be financed primarily by user charges; or (b) "net income" be periodically determined and used as appropriate for capital maintenance, management control, or determination of amounts to be transferred to other operating funds as required by statute.

Internal Service Funds- -this group is similar to enterprise funds except that the goods or services are provided primarily to other agencies or funds of the State, rather than to the general public.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. Nonexpendable Trust Funds, and Pension Trust Funds are accounted for on a flow of economic resources measurement focus.

Governmental fund Types and Expendable Trust Funds are accounted for on the modified accrual basis of accounting. Revenues and related receivables are recorded in the accounting period that they become both measurable and available, i.e., earned and collected or expected to be collected within the next 12 months.

Tax revenues are recorded by the State as Taxpayers earn income (personal income business and other taxes) as sales are made (consumption and use taxes) and as the taxable event occurs (miscellaneous taxes), net of estimated overpayments (refunds). Expenditures and related liabilities are recorded in the accounting period the liability is incurred to the extent it is expected to be paid within the next 12 months, except for vacation leave and interest on general long term obligations which are recorded when paid and certain pension contributions. The portion of the liabilities which are expected to be paid beyond 12 months is recorded in the General Long-Term Obligations Account Group.

Nonexpendable Trusts, Pension Trust Funds, Investment Trust Funds and Proprietary Funds are accounted for on the accrual basis. Agency Funds are custodial in nature (assets equal liabilities) and generally are accounted for on the cash basis which approximates the modified accrual basis of accounting.

Financial statements for University Funds have been prepared in accordance with the principles of fund accounting for colleges and universities on the accrual basis, except that no provision has been made for the depreciation of fixed assets. The statement of current funds revenues, expenditures and other changes is a statement of financial activities of the current funds related to the current reporting period. Student revenues are recognized in the accounting period earned.

D. Cash and Investments

Cash

Cash and Cash Equivalents represent petty cash, cash on deposits with banks, and cash invested in short-term securities. Cash Equivalents include investments in short term, highly liquid securities having an initial maturity of three (3) month or less. Cash balances not held in the State Treasury and controlled

Note 1. Summary of Significant Accounting Policies (Continued)

by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

Investments

Fixed-income securities are reported at fair value subject to adjustment for market declines judged to be other than temporary. Gains and losses on sales and exchanges of fixed-income securities are recognized under the completed or deferral transaction method.

Equity securities are reported at fair value subject to adjustment for market declines judged to be other than temporary. The cost of corporate stock sold is determined using the average cost of the security. Gains and losses on sales and exchanges of equity securities are recognized under the completed or deferral transaction method.

The fair value of investments are estimated and reported based on quoted market prices. If a quoted market price is not available, the fair value is estimated using quoted market prices for similar securities.

Short-term interest bearing securities are stated at fair value. Maturities are generally less than 365 days.

E. Receivables

Receivables are stated net of estimated allowance for uncollectible amounts, which are determined based upon past collection experience and current economic conditions. Due from other governmental entities represents amounts owed to the State to reimburse it for expenditures incurred pursuant to federally funded programs and other programs. Other receivables represent amounts owed to the State.

F. Inventories

Inventories of the Governmental Funds are valued at cost using predominantly the moving average cost methodology while inventories of the Proprietary Funds are valued at cost using the average cost methodology. The Governmental Funds use the purchase method while the Proprietary Funds use the consumption method.

G. Fixed Assets and Depreciation

Fixed assets are valued at historical cost or at estimated historical cost if actual historical cost data are not available. Donated fixed assets are recorded at fair market value on the donation date.

Governmental Funds

Governmental Funds record expenditures when they acquire fixed assets and capitalize those assets in the General Fixed Assets Account Group. The General Fixed Assets Account Group records neither depreciation nor capitalization of interest expenditures during construction. The State does not record its public domain (infrastructure) assets in the General Fixed Assets Account Group.

Proprietary And Similar Trust Funds

Proprietary Funds, Nonexpendable Trust Funds, and Pension Trust Funds capitalize fixed assets when acquired. Depreciation is provided using the straight-line method over the asset's estimated useful life regardless of salvage value.

Note 1. Summary of Significant Accounting Policies (Continued)

H. Liabilities

Accrued liabilities consist primarily of payroll and related fringe benefit accruals. Payables represent unpaid claims against the State.

I. Long-Term Obligations

The liabilities reported in the General Long-Term Obligations Account Group include the State's general obligation bonds, Severance Tax bonds, most obligations under lease/purchase and other arrangements and other long-term liabilities including vacation leave and sick leave.

J. Compensated Absences

The State records vacation and sick leave as an expenditure when paid. Employees are entitled to accumulate annual leave at a graduated rate based on years of service.

Qualified employees are entitled to accumulate sick leave at the rate of one day for each calendar month of service. There is no limit to the amount of sick leave which an employee may accumulate. Employees may elect to be compensated for sick leave in excess of 600 hours at half the employee's hourly rate in any one year, not to exceed 120 hours, unless retiring. Retiring employees may convert up to 400 hours in excess of the 600 hours at half the retiring employee's hourly rate. This election may be made at retirement or at specified times during the employment year. All sick leave balance in excess of 600 but less than 720 hours have been recorded at 50 percent of the employees' hourly rate in the General Long-Term Obligations Account Group.

K. Totals (Memorandum Only) Columns

Amounts in the "Totals - Memorandum Only" columns represent an aggregation of the combined financial statement line-items to facilitate financial analysis. Amounts in the "Totals-Memorandum Only" columns are not comparable to a consolidation.

"Memorandum Only" columns for 1997 are included to provide a summarized comparison with comparable 1998 amounts. The 1997 totals are not intended to present all information necessary for a fair presentation of financial position and results of operations in accordance with generally accepted accounting principles.

To enhance comparability, some 1997 amounts have been reclassified to conform with the presentation used in the 1998 financial statements.

L. Reservation of Fund Balances

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed in the General Fund, Special Revenue Funds, and Capital Projects Funds. The cost of construction contract commitments generally is recorded as an encumbrance of Capital Projects Funds and is presented as a reserve for encumbrances. These committed amounts generally will become liabilities in future periods as the construction work is performed by the contractors. Encumbrances outstanding at year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

Note 1. Summary of Significant Accounting Policies (Continued)

Unemployment Benefits

Fund balance reserved for unemployment benefits represents assets available to fund future unemployment benefit payments.

Debt Service

Fund balance reserved for debt service represents various capital reserve assets available to finance future debt service payments in accordance with the underlying bond indentures.

Arbitrage Rebates

Fund balance reserved for arbitrage rebates represents assets available to pay for arbitrage rebates.

Note 2. Cash and Investments

By law, all deposits and investments are under the control of the State Treasurer, except for those which specific authority are under the control of other component units. Legally authorized investments vary by fund but generally include: Obligations of or guaranteed by the United States; obligations of the State of New Mexico and its political subdivisions; stocks and bonds; and repurchase agreements.

Cash

Cash and cash equivalents represent the demand deposit with the New Mexico State Treasurer and New Mexico banks. The State Treasurer invests all public monies held in excess of the minimum compensating balance which it must maintain in the non-interest bearing demand deposit account with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The interest earned on the investment of these public monies is distributed monthly to earmarked accounts, as specifically identified by statute, based on their monthly average cash balances at the average certificate of deposit rate and overnight investment rate. The remaining portion is transferred to the State General fund Appropriations Account.

The State maintains approximately 621 bank accounts for various purposes at locations throughout the State. Bank deposits may be under the joint custody of the State Treasurer and the organization unit, agencies or other component unit with the exception of the University funds which are totally under the control of the universities.

For deposits of public monies with New Mexico financial institutions, the State requires that its depository banks pledge collateral in amount ranging from 50% to 100% of the amount deposited, dependent upon the institutions operating results and capital.

Investments

The State holds investments both for its own benefit and as an agent for other parties. Legally authorized investments vary by fund but generally include obligations of the United States and certain agencies of the United States, obligations of the State of New Mexico and certain of its political subdivisions, certificates of deposits, collateralized repurchase agreements, and certain corporate securities.

The State's investments are categorized to give an indication of the level of custodial risk assumed by the State at June 30, 1998. Category 1 includes investments that are insured or registered, or for which the State or its agent, in the State's name, holds the securities. Category 2 includes uninsured and unregistered

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS

Other				<u>31,957</u>
Total investments				<u>\$ 24,533,175</u>

Securities Loan Program

Through a safekeeping agent, the State lends securities for a fee from its investment portfolios on a collateralized basis to third parties, primarily financial institution and/or brokerage houses. The market value of the required collateral must meet or exceed 102% of the market value of the securities loaned, providing a margin against a decline in the market value of the collateral. Securities loaned and securities taken as collateral are all book-entry securities which are substantially similar in type, rate, and maturity for each transaction. Under this program, the State may demand return within twenty-four (24) hours of any security previously loaned.

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS
June 30, 1998

Note 3. Retirement Plans

A. Plan Descriptions

The State maintains two cost-sharing multiple-employer public employees retirement systems: the New Mexico Public Employees' Retirement System (PERA) and the New Mexico Educational Employees' Retirement System (ERA). These Systems publish their own component Unit Financial Report.

The systems provide retirement, death, and disability benefits to State employees, employees of counties, municipalities, public schools, universities, colleges, special schools, and certain other political subdivisions. Each System is independent. Assets may not be transferred from one system to another or used for any purpose other than to benefit each system's participants.

The number of participating government employers, the number of contributing members, and payroll amounts (dollars expressed in the thousands) for each system for the year ended June 30, 1998 were:

	<u>PERA</u>	<u>ERA</u>
Number of employers:		
State Agencies	117	10
Cities	71	-
Counties	33	-
Public Schools	-	89
Universities and Colleges	-	11
Special Schools	-	10
Other	49	-
Number of Contributing Members:		
State, Cities and Counties Employees	41,692	-
Public Schools, Universities, Colleges & Special Schools	-	58,097
Other	-	-
Covered payroll:		
State, Cities and Counties Employees	\$ 1,156,106	-
Public Schools, Universities, Colleges & Special Schools	-	\$ 1,542,800
Other	*	-

* Included with state, cities, and counties employees.

Information regarding membership in the systems at June 30, 1998 was:

	<u>PERA</u>	<u>ERA</u>
Retirees and beneficiaries currently receiving benefits	15,745	19,244
Terminated employees entitled to benefits but not yet receiving them	1,816	14,045
Active employees / Volunteers - Vested, Non-Vested	41,692	58,097
Total participants	<u>59,253</u>	<u>91,386</u>

Note 3. Retirement Plans (Continued)

B. Funding Benefit Policies

The New Mexico Public Employees' Retirement System

Public Employees Retirement Plan - This is a qualified, benefit defined, governmental retirement plan which has six divisions of members: state general, state police/hazardous duty, municipal general, municipal police, municipal fire, and Legislative. The majority of the state and municipal employees, excluding those covered under the separate Educational Retirement Act, participate in the Plan under Section 10-11-1 through 10-11-140, NMSA 1978, the "Public Employees Retirement Act."

Retirement ages vary depending upon the division to which the member belongs, but benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age. Early retirement benefits are also available at age 60 and above.

Member's contributions for all divisions, except Legislative, are based upon a percentage of salary and range from 4.78% to 16.30%, depending upon the division. Employer's contributions, also a percentage of salaries paid, range from 7% to 25.72%. Contribution rates are established by State statute.

Retirement benefits for all divisions, except Legislative, are computed based upon the member's "final average salary", length of service and a pension factor. Monthly benefits vary depending upon the division to which the member belongs and range from 2% to 3.5% of the member's "final average salary".

Benefits for duty and non-duty death and disability and for post retirement survivors' annuities are also available.

Judicial Retirement Plan - Persons who serve or have served in the office of Judge or Justice may be entitled to retirement benefits under Section 10-12B-1 through 10-12B-17, NMSA 1978, the "Judicial Retirement Act." Benefits are available at age 64 or older to anyone having served not less than five years. Early retirement at age 60 is available to anyone having served at least 15 years. The plan also provides for survivors' allowances and disability benefits. The plan is a defined benefit plan, benefits being based upon salary received during the last year in office and length of service.

Members contribute 5% of their salaries and the members' court contributes 9% of the members salary. Additionally, the district court contributes \$38 for each civil case docket fee paid. Contribution rates are established by State statute.

Magistrate Retirement Plan - Persons who serve or have served in the office of Magistrate may be entitled to retirement benefits under Section 10-12C-1 through 10-12C-16, NMSA 1978, the "Magistrate Retirement Act". Benefits are available at age 64 or older to any Magistrate having ceased to hold office by reason of expiration of his term or voluntary resignation. Early retirement at age 60 is available to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The plan also provides for survivors' allowances and disability benefits. The plan is a defined benefit plan, benefits being based upon salary received during the last year in office and length of service.

Members contribute 5% of their salaries and the State, through the Administrative Office of the Courts, contributed 9% of the member's salary. Additionally, the magistrate or metropolitan court contributed \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid. Contribution rates are established by State statute.

Volunteer Firefighters Retirement Plan - Persons who serve or have served as volunteer non-salaried firefighters may be entitled to retirement benefits under Section 10-11A-1 through 10-11A-7, NMSA 1978, the "Volunteer Firefighters Retirement Act". Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for not less than 10 years. The plan also provides for survivors' allowances. Benefits range from \$100 to \$200 per month based on length of service.

Note 3. Retirement Plans (Continued)

State statutes require that the State Treasurer transfer \$1,000,000 from the Fire Protection Fund to the "Volunteer Firefighters Retirement Fund, for the current fiscal year.

The New Mexico Educational Employees' Retirement System

The Educational Employees' Retirement Plan - This is a qualified, defined benefit governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

The benefits are computed using the final average salary and years of service. Plan options may be selected by retiring members requiring actuarial reductions based on attained age, age of spouse and similar actuarial factors. A brief summary of coverage plan provisions are as follows:

- (1) Normal retirement eligibility conditions applicable to all members:
 - The member's age and earned service credit add up to sum of 75 percent or more;
or
 - Age 65 or more with at least five years of earned service credit; or
 - The member has earned service credit and allowed service credit totaling 25 or more years.

A further requirement to be eligible to retire is that one must be a "member" having at least one year of employment after July 1, 1957 and at least five years of contributory employment. Eligible members who have one year of employment after July 1, 1957, but less than the required five, may contribute to the fund for each year needed. The cost of such contributions is 15.2 percent of the average salary of the last five years of each year of contributory employment needed, plus three percent compounded interest from July 1, 1957 to the date of payment.

When a member has completed five or more years of "earned service credit" and has made contributions for at least five years, the member may terminate employment, leave his/her contributions in the retirement fund and retire (1) when the member's age and years of "earned service credit" (covered employment in New Mexico) add up to the sum of 75 or more, or (2) the member may retire at age 65, if he/she has at least five years of "earned service credit."

- (2) Normal Retirement Pension Amount - The benefit for retirement at age 60, or after 25 years of service before age 60, is an annual sum equal to the "final average salary" multiplied by the total number of years of service credited times 2.35 percent.
- (3) Normal and Optional Forms of Payment - The normal form of Payment is for life. Optional contingent survivor beneficiary forms of payment are available on an actuarial equivalent basis.
- (4) Disability Retirement - A member may be eligible for disability benefits after the member has completed ten years of earned service credit and is totally disabled to continue in employment and is unable to gain or retain other employment commensurate with his education, background and experience.

In order to receive benefits, the disabled member must have terminated employment because of their disability and must file application with the Educational Retirement Board

Note 3. Retirement Plans (Continued)

The member must also submit to an examination by medical examiners appointed by the Board. The annual disability benefit generally shall be the final average salary multiplied by number of years of service times 2.0 percent. If this amount is less than one-third of the final average salary or the product of the final average salary times 2.0 percent times the sum of the member's service credit and 60 minus member's age, whichever is less.

When a disabled member becomes age 60, the member is deemed to have retired, and thereafter, his/her disability benefit becomes a retirement benefit, subject to the reduction if the member elects an option. The member is no longer subject to removal from status due to an improvement of condition.

- (5) Cost of Living Increases - Pensions are increased each July 1 in accordance with $\frac{1}{2}$ of the percent change in the Cost of Living of the preceding calendar year or four percent, whichever is less. The annual adjustment shall be no less than two percent. The first adjustment to the annuity will be made on July of the year in which the retirement member attains age 65 or on July 1 of the following year in which the member retires, whichever is later.

Employee and Employer Obligations to Contribute

As a condition of participation in the System, both employees and employers are required to contribute 7.60 and 8.65 percent of salaries and wages, respectively.

Members may withdraw their contributions only when they terminate covered employment in New Mexico and certification of termination has been provided by the former employers. Interest paid to members when they withdraw their contributions, following termination of employment, is 75 percent of the average earnings rate of the fund during the five fiscal years preceding the year of withdrawal. Interest is not earned on contributions credited to accounts prior to July 1, 1971, and contributions on deposit for less than one year earned no interest.

C. Funding Status and Progress

The total actuarial present value of the statutory obligations, also known as the actuarial present value of total projected benefits, is intended to help users assess systems' funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons between public employee retirement systems. This calculation includes all benefits estimated to be payable to plan members (retirees and beneficiaries, terminated employees entitled to benefits but not yet receiving them, and current active members) as a result of their service through the valuation date and their expected future service. The actuarial present value of the statutory obligations as of the valuation date is the present value of the cost to finance benefits payable in the future, discounted to reflect the expected effects of the time value (present value) of money and the probabilities of payment. Expressed another way, it is the amount that would have to be invested on the valuation date so that the amount invested plus invested earnings will provide sufficient assets to pay total projected benefits when due.

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS
June 30, 1998

Note 3. Retirement Plans (Continued)

The actuarial present value of statutory obligations of the systems' was determine as part of the actuarial valuation at June 30, 1998. Actuarial and economic assumptions include the following:

	<u>PERA</u>	<u>ERA</u>
Valuation date	June 30, 1998	June 30, 1998
Actuarial cost method	Individual Entry age	Entry age Normal
Amortization method	Level Percent of payroll	Level Payment Open
Amortization period	13 to 30 years	26.7 years
Asset valuation method	4 Year Smoothed market	5-year Smoothed market
Rate of return on investment of present and future assets *..	8%	8%
Inflation increase	5%	3.54%
Post retirement benefit increases	3%	2%
Interest on member accounts	5.25%	-
Projected salary increases	5.50% to 9.30% *	4.50% to 13.25%

* Includes inflation at 5.00%.

** Projected salary increases, attributable to seniority/merit, vary from 0.00% to 3.8% based on age of employee and division in which employed.

The annual interest rate assumption for all plans is 8%. Projected rates of separation due to withdrawal, death, service retirement, and disability are based on experience of the systems. Neither PERA nor the ERA separately measures assets and pension benefit obligations for individual employers. The total unfunded actuarial accrued liability for each system (expressed in thousands) at June 30, 1998 (latest available data), was:

	<u>PERA</u>	<u>ERA</u>	<u>TOTAL</u>
Actuarial accrued liability:			
Retirees and beneficiaries currently			
receiving benefits	\$ 2,944,616	\$ 2,729,789	\$ 5,674,405
Vested former members	80,678	*	80,678
Active Members	<u>3,066,606</u>	<u>3,669,020</u>	<u>6,735,626</u>
Total actuarial accrued			
Liability	6,091,900	6,398,809	12,490,709
Less: Funding value of			
assets	<u>5,565,686</u>	<u>5,169,503</u>	<u>10,735,189</u>
Unfunded actuarial			
Accrued liability	<u>\$ 526,214</u>	<u>\$ 1,229,306</u>	<u>\$ 1,755,520</u>

* Included with active members.

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS
June 30, 1998

Note 3. Retirement Plans (Continued)

D. Contributions Required and Contributions Made

Contributions made in accordance with the required contribution amount (dollars expressed in thousands) are as follows:

	<u>PERA</u>	<u>ERA</u>	<u>TOTAL</u>
Employer contributions.....	\$ 169,364	\$136,191	\$ 305,555
Member contributions	<u>114,203</u>	<u>122,499</u>	<u>236,702</u>
Total Contributions	<u>\$ 283,567</u>	<u>\$ 258,690</u>	<u>\$ 542,257</u>

Significant actuarial assumptions used to compute contribution requirements are the same as those used to compute the standardize measure of pension obligation discussed above.

Note 4. Post-Employment Benefits Other Than Pensions

The Retiree Health Care Act (10-7C-1 to 10-7C-16, NMSA 1978) provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The purpose is to provide eligible retirees, their spouses, dependents, and surviving spouses and dependents with health insurance consisting of a plan or optional plans of benefits that can be purchased by funds flowing into the Retiree Health Care Fund and by co-payments or out-of-pocket payments of eligible retirees.

Monies flow to the Retiree Health Care Fund on a pay-as-you-go basis from eligible employers and eligible retirees. Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority and state agencies, state courts, magistrate courts, municipalities or counties, which are affiliated under or covered by the Educational Retirement Act or the Magistrate Retirement Act or the Public Employees Retirement Act.

Eligible retirees are: (1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Retiree Health Care Act on the person's behalf unless that person retires on or before July 1, 1995, in which event the time period required for employee and employer contributions shall become the period of time between July 1, 1990, and the date of retirement; or (2) retirees defined by the Act who retired prior to July 1, 1990.

Each participating employer makes contributions to the fund in the amount of one percent of each participating employee's annual salary. Each participating employee contributes to the fund an employee contribution in an amount equal to one-half of one percent of the employee's salary. Each participating retiree pays a monthly premium of fifty seven dollars and sixty five cents (\$57.65) for the basic single plan and an additional participation fee of five dollars (\$5.00) if the eligible participant retired prior to July 1, 1990 and made no contributions to the plan. Participants may also enroll in optional plans of coverage.

Contributions for participating employers and participating employees become the property of the Retirement Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operation or participation in the Retirement Health Care Act. The employer, employee, and retiree contributions are required to be remitted to the Retiree Health Care Authority on a monthly basis.

The post employment benefit expenses for the year ended June 30, 1998 consisted of premiums paid in the amount of \$14,842,838 and claims paid in the amount of \$40,433,372 for a total of \$55,276,210. Participant contributions were \$56,402,728 therefore, the net revenue for the year was \$1,126,518.

For the fiscal year ended June 30, 1998 employers/employees and retirees remitted \$32,243,400 and \$24,159,328 respectively. As of June 30, 1998, 17,371 retirees were participating in the plan.

Note 5. Deferred Compensation Plan

The State of New Mexico offers state, local government and school district employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all State employees and those local governments and school district employees whose employers have elected participation in the plan permitting participants to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

There are employees that are making contributions to the Deferred Compensation Plan. The State makes no contributions to the Deferred Compensation Plan. All contributions withheld from participant's by the State have been paid to the New Mexico Public Employees' Retirement Association, which administers the plan.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the State of New Mexico (without being restricted to the provisions of benefits under the plan), subject only to the claims of the State's general creditors. Participants' rights under the plan are equal to those of general creditors of the State in an amount equal to the fair market value of the deferred account of each participant. The State has no liability for losses under the Plan but does have the duty of due care that would be required of an ordinary prudent investor. The State believes it is unlikely that Plan assets will be used to satisfy future claims of general creditors.

Plan assets of \$188.5 million at June 30, 1998 were reported at fair value within the sole custody of the Agency Funds

Note 6. Arbitrage on Tax-Exempt Bonds

Prior to the Tax Reform Act of 1986 (TRA), state and local governments had up to three years to use the proceeds from tax exempt bonds issued by them before arbitrage on such proceeds had to be paid to the Treasury Department. Arbitrage, as defined, is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bond holders.

TRA 1986 required rebate of such arbitrage to the Treasury Department on governmental bonds issued after August 31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the 6 month rule. For bonds issued after December 19, 1989 the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the 6 month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the 6 month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bonds purchaser on the issue date and investment earnings on such proceeds during the 6 month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

STATE OF NEW MEXICO
NOTES TO THE FINANCIAL STATEMENTS
June 30, 1998

Note 6. Arbitrage on Tax-Exempt Bonds (Continued)

The following is a schedule of bond issues, along with the bond year ends and Arbitrage rebate due dates. The State Treasurers Office has completed the first arbitrage computation for the bonds, as indicated:

	<u>Bond year End of First Rebate Computation</u>	<u>First Arbitrage Rebate Due Date</u>	<u>First Computation of Arbitrage Completed</u>
Capital Projects General Obligation Bonds Series 1993	September 1998	November 1998	x
General Obligation Refunding Bonds Series 1993-B	September 1998	November 1998	x
General Obligation Capital Projects Improvement Bonds Series 1995	September 2000	November 2000	
General Obligation Capital Projects Improvement Bonds Series 1997	September 2002	November 2002	
Severance Tax Bonds Series 1993-B	July 1998	August 1998	x
Severance Tax Bonds Series 1994-B	July 1999	August 1999	
Severance Tax Bonds Series 1995-A	July 2000	August 2000	
Severance Tax Bonds Series 1995-B	July 2000	August 2000	
Severance Tax Bonds Series 1996-A	July 2001	August 2001	
Severance Tax Refunding Bonds Series 1997-A	July 2002	August 2002	
Severance Tax Refunding Bonds Series 1998-A	July 2003	August 2003	
Severance Tax Bonds Series 1998-B	July 2003	August 2003	

Interest earnings on invested bond proceeds through June 30, 1998 did not exceed the interest costs of the bonds. Such amounts would have been included as a reservation of fund balance in the accompanying financial statements. Amounts due the Internal Revenue Service which are known and measurable are recorded as a liability - accrued arbitrage interest payable in the accompanying financial statements.

STATE OF NEW MEXICO

NOTES TO THE FINANCIAL STATEMENTS

June 30, 1998

Note 7. Restatements of Prior Year Fund Balances

The beginning fund balances of certain governmental fund types and retained earnings of certain proprietary and Fiduciary fund types were restated from the 1997 presentation. The prior year financial statements were corrected to reflect adjustments to revenue and liabilities for the various fund types. Also to record the effect of adopting GASB Statement No. 31 and recording Severance Tax Bonding Fund transfers received on June 30, 1997. These adjustments were made as increases (decreases) to June 30, 1997 balances as follows (amounts in thousands):

	Beginning Fund Balances/Retained Earnings July 1, 1997	Adjustments		Restated Fund Balances/Retained Earnings July 1, 1997
		Increase	Decrease	
Governmental Funds	\$ 934,198	\$ 534	\$ 36,520	\$ 898,212
Proprietary Funds	\$ 476,491	\$ 72	\$ -	\$ 476,563
Fiduciary Funds:				
Expendable Trust Funds	179,555	-	343	179,212
Non-Expendable Trust Funds	<u>16,943,271</u>	<u>1,895,707</u>	<u>-</u>	<u>18,838,978</u>
Totals	<u>\$ 18,533,515</u>	<u>\$ 1,896,313</u>	<u>\$ 36,863</u>	<u>\$ 20,392,965</u>

Note 8. Unreserved, Undesignated Fund Balance (Deficit)

The unreserved, undesignated fund balance (deficit) is the component of fund balance that represents the portion of the encumbrances recognized in advance of the corresponding funding source.

Note 9. Subsequent Events

Bonds

On October 22, 1998, the New Mexico State Highway & Transportation Department issued \$105,000,000 in aggregate principal amount of its Senior Subordinate Lien Tax Revenue Highway Bonds, Series 1998A ("the CHAT Bonds"). The CHAT Bonds are being issued pursuant to a resolution of the State Highway Commission adopted on September 17, 1998 (the "CHAT Resolution"). The lien of the 1998 WIPP Bonds (described in the following paragraph on the Pledged Revenues will be subordinate to the lien on the Pledged Revenues securing the CHAT Bonds. The interest rates on these bonds range from 4.25% to 5.125% with final principal payment due June 15, 2010.

On October, 22, 1998 the New Mexico State Highway & Transportation Department issued \$100,000,000 in aggregate principal amount of its Subordinate Lien Tax Revenue Highway Bonds, Series 1998B (the "1998 WIPP Bonds"), for additional WIPP highway projects. The 1998 WIPP Bonds are being issued pursuant to a resolution of the Commission adopted on September 17, 1998. The lien of the CHAT Bonds on the Pledged Revenues will be superior to the lien on the Pledged Revenues securing the 1998 WIPP Bonds. The 1996 WIPP Bonds and the 1998 WIPP Bonds are on a parity with each other. The interest rates on these bonds range from 4.25% to 5.125% with final principal payment due June 15, 2011.

On September 17, 1998 the New Mexico Finance Authority (the "NMFA") sold \$100,230,000 in aggregate

Note 9. Subsequent Events (Continued)

principal amount of its Federal Highway Grant Anticipation Revenue Bonds, Series 1998A (the "NMFA Bonds"), which were delivered on October 2, 1998. The NMFA Bonds are payable from funds received under a loan agreement between the NMFA and the New Mexico State Highway and Transportation Department (Department). The Department's obligations under such loan agreement are payable from and secured solely by a lien on certain federal funds payable to the Department from the Federal Highway Administration. After loan agreement payments and any similar payments due on obligations that may hereafter be issued payable from such funds have been obligated and encumbered by the Department, any remaining federal funds received will be deposited into the State Road Fund.

The total debt service payments, principal and interest, required to be made in the 1999th fiscal year for these bond issues is \$18,653,215. Total debt service for these bonds for the years 1999 through 2015 is \$410,262,430.

Note 10. Year 2000 Disclosure

The State of New Mexico is currently addressing the year 2000 (Y2K) issues relating to its computer systems and other electronic equipment. The year 2000 issue refers to the fact that many computer programs use only the last two digits to refer to a year. Therefore, both 1900 and 2000 would be referred to "00." Computer programs have to be adjusted to recognize the difference between those two years or the programs will fail or create errors. Also, some programs may not be able to recognize that 2000 is a leap year.

The State has appointed the Chief Information Officer (CIO) of the Information Technology Management Office to monitor Y2K compliance efforts. The CIO completed a survey in which the executive branch agencies identified, described and reported Y2K mission-critical systems. The CIO continues to monitor the agency progress by means of required quarterly reports and regular communications with agencies deemed to be at risk. Further a risk assessment from an independent project contractor of executive agency systems deemed to have a state-wide impact in the areas of Public Safety, Health and Human Services, and key financial transactions has been completed and this information will be used to monitor agencies at risk.

The Y2K Systems Status June Report issued June 1, 1999 by the CIO states that the number of mission critical systems in New Mexico State Government is 280. 55% of the mission critical systems are reported compliant, 10% are in the test phase and 35% are in progress, however, there are expectations that all systems will be compliant by January 1, 2000.

Management believes that the State has the correct strategy and plan in place to address the Y2K issues. However, because of the unprecedented nature of the year 2000 issue, its effects and the success of the related remediation efforts cannot be fully determinable until the year 2000 and thereafter. Consequently, management cannot guarantee that the State is or will be year 2000 ready, that the State's remediation efforts will be successful in whole or in part, or that parties with whom the State does business will be year 2000 ready. However, the executive agencies are preparing contingency and business continuity plans to ensure minimal disruption of state services related to Y2K problems.

TRUST AND AGENCY FUNDS

Trust funds are used to account for assets held by the government in a trustee capacity. Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Funds - to account for resources that the State holds as a trustee. Both the principal and earnings of expendable trust funds may be used for purposes allowed under the trust agreements.

Nonexpendable Trust Funds - to account for resources that the State holds as a trustee where the principal may not be expended.

Pension Trust Funds - These funds are used to account for the activities of the Public and Educational Employees Retirement Systems.

Investment Trust Funds - to account for cash, securities and other investments held in custody for participants in the NM State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds.

Agency Funds - to account for resources that the State holds as an agent for individuals, private organizations, other governments and/or other funds.

COMPONENT UNITS

Component units are organizations that meet one of the following criteria: 1) they are legally separate from the State but the State is financially accountable for them; 2) their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete.

UNIVERSITY FUNDS - are used to account for the operations of the following public institutions of higher education:

Eastern New Mexico University
New Mexico Highlands University
New Mexico Institute of Mining and
Technology
New Mexico State University
University of New Mexico
Western New Mexico University

Current Funds-Unrestricted—account for resources that higher education institutions may use for any purpose in carrying out their primary objectives.

Current Funds-Restricted—account for resources that donors or other outside individuals or entities have restricted for specific current operating purposes.

Loan Funds—account for gifts and grants which are limited by the terms of the donors for the purpose of making loans to students.

Endowment and Similar Funds—account for resources that are subject to the restrictions gifts instruments requiring in perpetuity that the principal be invested and the income only be utilized.

Plant Funds—account for resources that have been or are to be invested in property, plant and equipment, and funds reserved to retire debt incurred to finance facilities.

Agency Funds—account for resources held by the institutions acting as custodian or fiscal agent.

SCHEDULE 30

THE EDUCATIONAL RETIREMENT SYSTEM

For The Last Six Years Ending June 30, 1998

(Amount in Thousands)

Actuarial Valuation Date	Actuarial Value of Assets (AVA)	Actuarial Accrued Liability (AAL) --Entry Age	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
June 30, 1998	\$ 5,169,500	\$ 6,398,800	\$ 1,229,300	81%	\$ 1,542,800	80%
June 30, 1997	4,516,400	5,854,400	1,338,000	77	1,448,700	92
June 30, 1996	3,993,600	5,542,300	1,548,700	72	1,413,600	110
June 30, 1995	3,561,800	5,079,600	1,517,800	70	1,356,500	112
June 30, 1994	3,181,100	4,657,700	1,477,600	68	1,258,700	117
June 30, 1993	2,798,200	4,207,700	1,409,500	67	1,191,000	118

NOTE: AVA was set to the book value in the June 30, 1992 and 1993 actuarial valuations. It was changed to a smoothed market beginning with the June 30, 1994 valuation. Actuarial assumptions were changed as of June 30, 1994 and June 30, 1996.

STATE OF NEW MEXICO

ANALYSIS OF FUNDING PROGRESS

SCHEDULE 31

THE PUBLIC RETIREMENT SYSTEM

For The Last Six Years Ending June 30, 1998

(Amount in Thousands)

Actuarial Valuation Date	Actuarial Value of Assets (AVA)	Actuarial Accrued Liability (AAL) --Entry Age	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
June 30, 1998	\$ 5,487,475	\$ 6,000,439	\$ 512,964	91%	\$ 1,146,991	45%
June 30, 1997	4,560,312	5,558,679	998,367	82	1,102,082	91
June 30, 1996	3,845,138	5,054,258	1,209,120	76	1,098,636	110
June 30, 1995	3,364,452	4,646,242	1,281,790	72	1,043,575	123
June 30, 1994	2,974,816	3,976,512	1,001,696	75	943,330	106
June 30, 1993	2,696,511	3,561,050	864,539	76	909,242	95

Actuarial Value of Assets is the value of cash, investments and other property belonging to the pension plan used by the actuary for the purpose of valuation. The funding value of assets, which is used to derive the actuarial value of assets, recognizes assumed investment income fully each year. Differences between actual and assumed investment income are phased in over a closed four year period. During periods when investment performance exceeds the assumed rate, funding value of assets will tend to be less than market value. During periods when investment performance is less than the assumed rate, funding value of assets will tend to be greater than market value. If assumed rates are exactly realized for three consecutive years, funding value will become equal to market value. For the valuation of assets, market value is used for fiscal year ended June 30, 1996 through 1998 and amortized cost is used for fiscal years ending June 30, 1993 through 1995.

Actuarial Accrued Liability is the portion of actuarial present value of total projected benefits which is not provided for by the future normal costs. Future normal costs is defined as that portion of the actuarial present value of total projected benefits which is allocated to a valuation year by the actuarial cost method.

Unfunded Actuarial Accrued Liability is the excess of the Actuarial Accrued Liability over the Actuarial Value of Assets.

Source of information for this schedule were actuarial assumptions and audit reports. Expressing the actuarial value of assets as a percentage of actuarial accrued liability provides one indication of funding status on a going-concern basis. Expressing the unfunded actuarial accrued liability as a percentage of covered payroll aids analysis of the progress made in accumulating sufficient assets to pay benefits when due.
